Advance bulletin 1971 CENSUS OF CANADA

Bulletin préliminaire RECENSEMENT DU CANADA 1971

POPULATION 15 YEARS AND OVER BY INCOME

This advance report gives the final figures from the 1971 Census for the population 15 years and over, by sex and 1970 total income; and for persons who worked in 1970, by sex and 1970 employment income. Table 1 shows the number and percentage of persons 15 years and over who worked in 1970 by sex, for Canada and the provinces. Tables 2 and 3 give the distribution of the population 15 years and over, by sex and size of their 1970 total income, for Canada, the provinces and census metropolitan areas. Table 4 gives the distribution of the persons who worked in 1970, by sex and size of employment income in 1970, for Canada and the provinces.

Further information on income of the population, as well as distributions by source of income, will be published at later dates in the regular volume series of final reports of the 1971 Census. The purpose of this advance report is to make available summary totals at an earlier date.

All figures in this report have been subjected to the confidentiality procedure introduced in the 1971 Census to prevent the possibility of associating small figures with any identifiable individual. Briefly, it involves the random rounding of all last or unit digits. Since totals are independently rounded, they do not necessarily equal the sum of rounded figures in distributions. Also there may be slight differences between comparable figures in this report and those in other census bulletins. This technique will be described in the reports of the 1971 Census volume series.

Each bulletin of the 1971 Census volume series will include measures of reliability in the form of estimates of the mean square error for sets of characteristics covered in that bulletin. The user interested in obtaining an indication of the reliability of these advance data should refer to the appropriate bulletin in the volume series.

Note: Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

POPULATION DE 15 ANS ET PLUS SELON LE REVENU

Ce bulletin préliminaire présente les résultats définitifs du recensement de 1971 en ce qui concerne la population de 15 ans et plus selon le sexe et le revenu total en 1970; et en ce qui concerne les personnes ayant travaillé en 1970 selon le sexe et le revenu de l'emploi en 1970. Le tableau 1 montre le nombre et le pourcentage, selon le sexe, des personnes de 15 ans et plus ayant travaillé en 1970, pour le Canada et les provinces. Les tableaux 2 et 3 donnent la répartition de la population de 15 ans et plus selon le sexe et la taille du revenu total en 1970, pour le Canada, les provinces et les régions métropolitaines de recensement. Le tableau 4 donne la répartition des personnes ayant travaillé en 1970 selon le sexe et la taille du revenu de l'emploi en 1970, pour le Canada et les provinces.

De plus amples détails sur le revenu de la population, de même que des répartitions par source de revenu, paraîtront à une date ultérieure dans la série des volumes du recensement de 1971. L'objet de ce bulletin préliminaire est de communiquer les résultats sommaires plus tôt.

La confidentialité de toutes les données présentées ici est assurée par la méthode utilisée au recensement de 1971 pour interdire la possibilité d'associer des chiffres de faible importance à une personne en particulier. En un mot, cette méthode consiste à arrondir au hasard tous les derniers chiffres, c'est-à-dire les chiffres représentant les unités. Ainsi, tous les chiffres ayant été arrondis individuellement, leur somme ne donne pas nécessairement les totaux indiqués. Il peut également y avoir de légères différences entre des chiffres comparables de ce bulletin et ceux d'autres bulletins du recensement. Une description de cette technique figurera dans les bulletins de la série des volumes du recensement de 1971.

Chaque bulletin de la série des volumes du recensement de 1971 renfermera des mesures de fiabilité sous forme d'estimations de l'erreur quadratique moyenne relativement aux groupes de caractéristiques observées. L'utilisateur désireux de connaître le degré de fiabilité de ces données préliminaires devra consulter le bulletin approprié de la série des volumes.

Note: Le revenu total basé sur ces données devrait être utilisé avec prudence, les moyennes ayant été calculées avant l'arrondissement.

DATE I

Definitions(1)

Income: Persons 15 years and over, were asked to report total income received during the calendar year 1970 from each of the sources explained below:

- (a) Wages and salaries: (amount before deductions for income tax, pensions, unemployment insurance, etc.) Includes military pay and allowances, tips, commissions and bonuses and piece-rate payments received during 1970, but excludes free room and board or other payments in kind.
- (b) Net income from self-employment (non-farm): (gross receipts minus expenses of operations) Amounts received from own non-farm unincorporated businesses or from a professional practice during 1970. In the case of partnerships, only the respondent's share was to be included.
- (c) Net income from farm operation: (gross receipts minus expenses of operations including depreciation) Amounts received from the operation of a farm, either for own account or in partnership, during 1970. Advance, supplementary or assistance payments to farmers (including Lower Inventory for Tomorrow programme payments) by federal or provincial governments were to be included.
- (d) 1. Family and youth allowances: The amount received from this source is included in the family head's income although reported by the wife. Provincial as well as federal allowances are included.
2. Government old age pensions, Canada pensions and Quebec pensions: Includes Guaranteed Income Supplement.
3. Other government payments: Includes all other government transfer payments from all levels of government such as unemployment insurance, veterans' pensions and allowances, welfare, workmen's compensation, mothers' allowances, etc.
4. Retirement pensions from previous employment: Includes all regular income received as a result of previous employment of the respondent or a deceased relative. Includes pensions to retired civil servants, RCMP or career military personnel, and all annuities regardless of who purchased them but excludes lump-sum payments.
5. Bond and deposit interest and dividends: Includes interest from deposits in banks, trust companies, co-operatives, Credit Unions, etc., as well as bond and debenture interest and all dividends.
6. Other investment income: Includes net rents from real estate, mortgage and loan interest, regular income from an estate or trust fund, and interest from insurance policies.
7. Other income: Includes regular income from alimony, child support, net income from roomers and boarders, pensions and other non-investment income from abroad, scholarships, etc.

Note: Coverage in 1961 was for non-farm private dwellings only (excluding N.W.T.). Since, in addition, farm income was not collected in 1961, the data are not directly comparable.

Employment income: Employment income refers to the total income received in 1970 as wages and salaries, net income from non-farm self-employment and/or net income from farm operation.

Census Metropolitan Area (CMA): The main labour market of a continuous built-up area having 100,000 population or more.

- (1) See the "Dictionary of 1971 Census Terms" which will give an indication, when applicable, as to how the 1971 Census terms compare with similar terms in the 1961 Census.

Définitions(1)

Revenu: Les personnes de 15 ans et plus devaient indiquer le revenu total reçu pendant l'année civile 1970 de chacune des sources suivantes:

- a) Rémunération: Rémunération totale avant déductions de l'impôt sur le revenu, des cotisations à un régime de pensions, des cotisations d'assurance-chômage, etc., y compris les soldes et indemnités militaires, les pourboires, les commissions et les gratifications ainsi que les paiements à la pièce reçus en 1970, mais sans la pension gratuite ou les autres paiements en nature.
- b) Revenu net d'un emploi autonome (non agricole): Recettes brutes, moins les dépenses d'exploitation, provenant de l'exploitation en 1970 d'une entreprise non agricole non constituée en corporation ou de l'exercice d'une profession pour compte propre. Dans le cas des sociétés exploitées en association, seule la part du recensé est prise en compte.
- c) Revenu net provenant d'une exploitation agricole: Recettes brutes, moins les dépenses d'exploitation, y compris l'amortissement, provenant de l'exploitation en 1970 d'une ferme pour compte propre ou en association. Les avances, les paiements supplémentaires et l'aide (y compris les paiements en vertu du programme de réduction des stocks de céréales) versés aux cultivateurs par le gouvernement fédéral ou les provinces sont pris en compte.
- d) 1. Allocations familiales et allocations aux jeunes: La somme provenant de cette source est comprise dans le revenu du chef de famille, même si c'est l'épouse qui la reçoit. Les allocations provinciales aussi bien que fédérales sont comptées.
2. Pensions de vieillesse de l'État et pensions du Régime de pensions du Canada et du Régime des rentes du Québec: Y compris le supplément de revenu garanti.
3. Paiements provenant d'autres sources publiques: Tous les autres paiements provenant de tous les niveaux de gouvernement, comme les prestations d'assurance-chômage, les pensions et allocations d'anciens combattants, les prestations de bien-être, les indemnités pour accidents du travail, les allocations aux mères nécessiteuses, etc.
4. Pensions de retraite relatives à un emploi antérieur: Tout revenu régulier relativement à un emploi antérieur du recensé ou d'un parent décédé, y compris les pensions des fonctionnaires, des membres de la G.R.C. et des militaires à la retraite ainsi que toutes les rentes, quel qu'en soit l'acheteur, mais sans les paiements forfaitaires.
5. Intérêts d'obligations et de dépôts et dividendes: Intérêts de dépôts dans des banques, des sociétés de fiducie, des coopératives et des caisses d'épargne et de crédit, etc., intérêts d'obligations et de dépôts et dividendes.
6. Autre revenu de placements: Loyers nets provenant de la location de biens immobiliers, intérêts de prêts hypothécaires et autres, revenu régulier provenant d'une succession ou d'un fonds de fiducie et intérêts de polices d'assurance.
7. Autre revenu: Revenu régulier provenant d'une pension alimentaire ou du soutien d'un enfant, revenu net provenant de chambreurs et de pensionnaires, pensions et autre revenu (sauf de placements) provenant de l'étranger, bourses d'études, etc.

Note: En 1961, le champ d'observation se limitait aux logements privés non agricoles (sauf dans les T. N.-O.). En outre, vu qu'on n'a pas demandé le revenu agricole en 1961, les données ne sont pas directement comparables.

Revenu de l'emploi: Revenu total reçu en 1970 sous forme de rémunération, de revenu net d'un emploi autonome non agricole et (ou) de revenu net provenant d'une exploitation agricole.

Région métropolitaine de recensement (R.M.R.): Le principal marché du travail d'une zone bâtie en continu comptant 100,000 habitants et plus.
